

# Cement Vibes

Ispirata al cemento e alle sue differenti tonalità cromatiche, la collezione Cement Vibes reinterpreta una materia che esiste da sempre. Le due declinazioni Solid e Resin vengono mostrate con tutti i loro dettagli e caratteristiche: l'anima più strutturale, solida, vibrante e l'anima più fluida, più minimal, contemporanea del cemento.

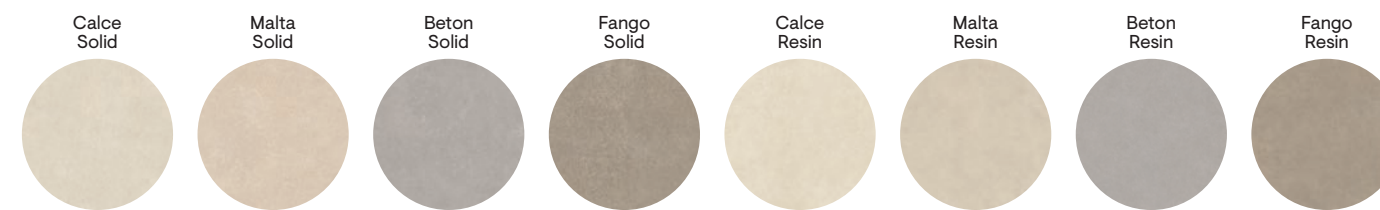

Inspired by concrete and its different chromatic shades, the Cement Vibes collection reinterprets a material that has always existed. The two variations, Solid and Resin, are shown with all their details and characteristics: the more structural, vibrant essence, and the more fluid, contemporary aspect of concrete.

Inspiriert vom Beton und seinen verschiedenen Farbtönen, interpretiert die Kollektion Cement Vibes ein Material, das schon immer existiert, neu. Die beiden Ausführungen Solid und Resin werden mit all ihren Details und Eigenschaften gezeigt: die strukturellere, festere, lebendigere Seele und die flüssigere, minimalistischere, zeitgenössische Seele des Betons.

Inspirée par le béton et ses différentes nuances chromatiques, la collection Cement Vibes réinterprète une matière qui existe depuis toujours. Les deux déclinaisons Solid et Resin sont montrées avec tous leurs détails et caractéristiques: l'âme plus structurelle, solide et vibrante, et l'âme plus fluide, plus minimaliste et contemporaine du béton.
